"The Price of Pride" with June Elvidge as lead is the big feature at the Rex on Saturday night. This is a great play, well worth seeing. Charlie Chaplin will be at the Rex in his latest comedy same day next week.

Auto Strop razors all sold on 30 days trial. Morrison and Johnston, Ltd.

Mrs. W. F. Graham left this week on a six week's visit to friends in the East.

Look up my Shorthorn Ad. R. J. Scott.

On Wednesday last a pretty wedding took place at the home of Mr. and Mrs. James Frizzell, Loch, in honor of their daughter, Ruth. She was united in matrimony to Mr. Harry Edward Bullock of Meadowbank (son of Mr. and Mrs. Edwin Bullock). The ceremony was performed by Rev. W.

Hollingsworth in the presence of a number of friends. Afterwards a delightful wedding breakfast was enjoyed, and the happy couple were assured of the heartiest of good wishes in kindest greetings and choice presents.

"A Song that Never Dies". The story of that beautiful hymn "Abide with Me." This will be the subject next Sunday evening at St. Andrew's Church. At the morning service, the subject will be "Saints of the Imperial Household." A cordial invitation is extended to all.

There will be Divine Service in St. Cyprian's Church on Sunday at 11 a.m. and 7.30 p.m., also at Milton schoolhouse at 4 o'clock.

The children's service in St. Cyprian's Church on Sunday at 12 o'clock.

A short devotional service in St. Cyprian's Church on Thursday evening at 8, to be followed by choir practice.

A. McConachie has for sale a 2½ h.p. gasoline engine at a snap. See it at Empire Garage.

See us for your requirements in Automobile oil, Morrison and Johnston, Ltd.

HOCKEY MATCH

Talk About A Game—Best Yet!

There was a very fast game of hockey held on Friday last between the high school boys and girls. The girls have been practicing hard for the last month or so and were in fine shape. The boys were handicapped throughout the game by having to skate backward, and it was a criminal offense to skate forward, and the penalties were many. The players went on the ice at 7.55 and after some preliminaries the game started. The puck was faced at exactly 8.00 and after some furious play on the part of the girls, Gerude Ramsay managed to put a past Rucke, who was playing goal for the boys. The next two goals were scored by the boys. The girls were mad now, as the boys had a margin of one goal, and with a rush the girl's forward line charged up the ice, and with some good combination and stick hand, the girls broke the boys' defence, and the puck was passed to Fredrick Halpin and she had a hard one at Rucke, who had had time to get out of the way. It was a hard one, and could have gone right through Rucke if he had not moved. The score was then 2-2, and there was but 6 minutes to play. The girls again started down toward the boys' goal, and with some good combination and stick hand, the girls broke the boys' defence, the puck was passed to Fredrick Halpin who scored with a nice shot from the side. There was five more minutes to play, and

the boys did not like score to be in favor of the girls, and with some fierce fighting managed to get past Beth Lundy, and scored just as the bell rang.

This was without doubt the fastest game of the season, and it is a pity there was not more of a crowd. The girls should have started practicing earlier in the winter, as they are fast skaters, and would make one of the best girls' hockey teams in the west. If these girls keep together they will be the coming champions of the world in a couple of years. On account of not being able to get the rink for the night, only 20 minutes of hockey was played, and at the rate the goals were scored, if the game had lasted the usual hour, the score would have been about 56 to 76 in favor of the girls. The game was a clean one and there was no hair pulling or scratching, and there were no casualties. On account of lack of space, the lineup of the teams will not be published until next week.

Farewell Party to A. A. Henry and Family, Wed. Last.

A surprise party was given by the many friends of the Henry Family at Milton. About 55 persons were there and a very enjoyable evening was spent. Little tokens were given to the departing family.

Brookley News

Spring Valley and Turville

Illustrated lantern lecture on "How we got our Bible" will be given on Monday, March 24th in Spring Valley School at 8 p.m., and in Turville school on Wednesday March 26 at the same hour. The ladies will serve lunch. This is an important subject, and as it is the last of the series of lectures a good turnout is expected. All welcome. Collection taken. J. G. Rogers, Minister.

Registered Shorthorns for Sale

I have about 70 head registered Shorthorn Cattle for Sale. Stockmen invited to inspect same any time at my barns, Lacombe.

I have ten young Bulls Ready for Service. Yearlings and two year old females.

Also some choice cows due to calf. These are all in good shape and bred to my Scotch Bull "Lord Omega" one of the best producers in Alberta.

R. J. Scott, Lacombe

Second Annual Auction Sale of Pure Bred Female Cattle

Will be held at the Edmonton Stockyards on Friday, April 4th commencing at 1 o'clock.

40 head of Aberdeen Angus Cows and Heifers.

38 head of Herefords, Cows and Heifers.

5 Shorthorns, 3 Cows and 2 yearlings.

This is your opportunity to get a start in pure bred cattle. Now that we have established a market in Edmonton, where you can dispose of pure bred cattle at the proper price, and as we have such a large country lying to the north and west of Edmonton, still to be supplied we are sure of this market for some considerable time to come.

The only way to raise Bulls for the Bull Sale is to own pure Bred cows.

Catalogues can be had by applying to the manager of Edmonton Stock yards.

Or to C. S. Smith, The Auctioneer—Phone 71497—11255—58st.—Edmonton Alta.

Orpingtons for Sale. Pure Buff Orpington cockerels for sale, \$2.50 each, apply P. A. Jacobson. Phone 1617.

BAILIFF'S SALE

Under and by virtue of a Mortgage given by Jas. A. Pennington to The Great West Life Assurance Co. and to me directed against the goods and chattels of Jas. A. Pennington named in the said Mortgage and Distress Warrant I have seized the following goods, namely: 2 mares and 1 black colt (a mare). 1 Lion Grey mare, 2 years old. 1 Grey Stallion, 9 years old. Which I shall expose for sale on Saturday the 29th day of March at the Star Livery Barn, Lacombe at the hour of 2.30 o'clock p.m. Dated Red Deer, March 4th, 1919. John A. McPherson, Sheriff. William G. Sage, Bailiff.

THE GREAT UNCERTAINTY

A life insurance agent had just closed with a farmer for \$2,000. The farmer invited him to dinner and introduced him to his wife, telling the latter that he had just insured his life for \$2,000, and paid the annual premium of \$70.00.

The wife smiled and said: "Why, John, if you would take that sum of money and invest it in a cow every year, it could make a good deal more money for us."

"That's all right," said John as he placed his arm about his wife and gave her a hug, "but you see, Mary, I'm not sure I will be here next year to buy you that cow."

Are you sure you will be here next year to provide for that family you love so well? Are you certain you will be here tomorrow? Now is the accepted time.

ELECTION CAMPAIGN BY GOVERNMENT EMPLOYEES

When questioned regarding his election campaigning in Beaver River, Mr. Belanger, former secretary to Hon. Wilfrid Gariepy, told Mr. Irving that he drew his salary as a secretary while on his work and his living expenses were paid by the department as shown by the official vouchers.

There is nothing sensational about this information, though the facts have seldom been admitted so frankly by a government employee. Ever since there was a province a large part of the work of the Liberal party machine has been done by those whose time was being paid for out of the public funds. This is a matter of common knowledge.

Such a state of things cannot be allowed to continue. It is no defence to Mr. Belanger's action to say that Dominion government officials were also campaigning. It is for the province to see to it that those whom it employs do not use its funds for purposes foreign to the work for which they are paid.

So far as the Dominion officials are concerned, there is every reason to believe that under the Union government which came into power since the campaign in Beaver River, such practices have been put a stop to. The outside as well as the inside services were brought under the civil service commission a year ago.

During the past week there was a strong attack made by Mr. Koecken of Toronto, upon that body and a demand for a return to the old method of leaving appointments in its control in the hands of members of parliament. But neither in parliament nor outside of it has he received any measure of support. Public sentiment is strongly approved of the abolition of the patronage system, and insists that the employees of the state should confine themselves to their proper duties.

Regardless of the situation in the Dominion service, the duty of the provincial government is clear. Mr. Stewart, when he assumed the premiership, declared emphatically in favor of a change and the people of Alberta expect him to carry through that pledge.

INTERESTING DETAILS OF AGRICULTURE

Edmonton, March 11.—During 2 years the total amount guaranteed in loans to farmers under the Cow Bill is just over two million dollars according to the annual report of Hon. Duncan Marshall, Minister of Agriculture, which has tabled in the house today. The report bristles with interesting facts covering all phases of agriculture in the province.

According to the report the number of farmers served under "Cow Bill" is 1,480 and the number of cattle purchased is over 2,000.

The report says that Dairy Commissioner Mark's statistics show the dairy business did not decline during the past year in spite of the adverse conditions of labor and the high cost of feed. The average number of milk cows per farm in Alberta is now 5.6, while the total production of creamery butter in the province in 1918 was 9,100,000 pounds as against 8,944,000 pounds in 1917.

In ten years the production of butter has increased from 2,550,000 pounds and cheese from 88,570 pounds to 650,000 pounds. There was an increase also in the price to the producer of butter of 75 p.c. in the last four years.

The report of W. P. Stevens, live stock commissioner, on bull sales shows that 141 were sold at Edmonton, at an average price of \$231.06; 784 at Calgary at an average of \$269.13, and 179 at Lacombe at an average of \$191.34. Mr. Stevens thinks that the sale of tractors and automobiles has affected the horse market especially the light horse market, and he remarks on George Lane making a sale of 22 head of pure-bred Percheron horses and one stallion to go to Great Britain.

The report of the publicity committee shows that whereas in 1909 there was 1,242,444 acres under crop in the provinces, in 1918 there were over six times as much, or 7,727,792 acres. The total area broken in the province is reported at over 10,000,000 acres.

During the year, 2,141 homesteads were granted, 15 pre-emptious six purchased homesteads, and there were 431 soldiers grants.

During March, April and May of 1918, 4,515 applications were filed by the labor bureau of the department. Wages during harvest ranged from \$65 to \$90 mo. and from \$2.50 to \$5.50 per day. The total situations filled by the labor bureau were 7,931.

Immigration for the year showed that Alberta received 16,261 people as against 12,418 in 1917, and 7,200 in 1916. Deputy Minister R. A. Craig, in his portion of the report goes into the efforts made to meet the drought and frost conditions. A tense situation was relieved by railways cutting their rates in half and the Dominion government having agreed to pay the other half of the rate on live stock shipped north and feed south, free. A total of 31,351 cattle were shipped north without taking account of small numbers driven out and 59,405 sheep. A good many horses also were moved north and 182 hay making outfits. Certificates for free transportation of hay south were issued for 86,483 tons, and a great many more applications are being taken care of since the close of 1918.

The summary of agricultural values for crops and stocks in 1918 gives an increase of \$7,000,000 over the valuation of 1917. Live stock in the province has doubled in value. Mr. Craig emphasizes

the increase in pure-bred herds and flocks.

Mr. Marshall's report goes into considerable detail on the subject of the greater production campaign, in which the Dominion government supplied funds, and the province was divided into sixteen divisions with an agricultural representative in each. The department posted 238 Ford tractors during the spring and the number of other tractors sold in the province is not known.

A. E. Meyer has been appointed superintendent of the agricultural schools, and Charles S. Hotchkiss has resigned from the position of chief publicity commissioner on account of ill health, his place being taken by James Craig.

The report states the provincial demonstration farms suffered from drought and frost, as did private enterprises. Considerable information is given concerning forage crops. It is stated that the corn crop is becoming a very important one in the southern part of the province for this purpose, the yield running from five to ten tons of green fodder per acre. Rape is also showing up well on the demonstration farms. While fall rye seems to be the leading pasture crop in the south. Sweet clover is being experimented on at Sedgewick, and alfalfa is doing well in withstanding drought at "Jacobson and Medicine Hat." The report states that the demonstration farms have paid their way during the year and are some to the good.

Work at the agricultural schools was interfered with by the influenza epidemic the schools being turned into hospitals. One hundred and forty-four patients were taken care of in the Olds school.

Military Germany Must Go

Paris, March 13.—Military Germany will go out of existence as the result of the adoption by the military terms of German disarmament as they will go into the peace treaty. These terms provide for a sweeping reduction of the German military estimate from 200,000 men, with 4,000 officers, the army to be retained by the voluntary system for the period of 12 years. The effect of this is to limit Germany's military strength for the next 12 years to 100,000 men, which is less than the number of men under the present armistice.

Other provisions in the military terms limit the arms and munitions Germany may possess to a quantity sufficient for 100,000 men and all the remainder must be delivered over or destroyed. The imperial general staff is abolished as the result of reducing the force. Discussion of the subject was resumed by the supreme council today, the basis for the debate being Marshal Foch's report on Premier Lloyd George's proposal to reduce Germany's armed force from 200,000 men, with 4,000 officers, to 140,000 men, and to substitute voluntary force for compulsory service. Marshal Foch favored the change, as the convention plan providing for 200,000 men would mean that Germany would have given Germany a trained army of 2,000,000 men in 10 years.

As against this, Mr. Lloyd George proposed to fix the enlistment term at 12 years. Mr. Foch embodied this in his report, which proposed an army of 140,000 men, the council finally adopted an amendment further reducing the figure to 100,000.

main purposes in substituting voluntary service for the conscription system was to pave the way for the disappearance of the conscription system throughout Europe, as it was believed that the effect of the abolition of the system in Germany would be that other European countries would generally follow it, thus ending the menace of large standing armies and their provocation to wars.

The council has already adopted the naval terms of the treaty, except for a few reserved provisions which will be discussed tomorrow. The progress that has been made with the work of framing the peace treaty ensures the completion of the task by March 20. The first rough draft will be in readiness when President Wilson arrives in France on Thursday, the 18th, and the revision will be concluded before the 20th. It is the present purpose of the peace conference to call the Germans to Versailles soon after March 20th, probably from March 22nd to March 25th. The document then will be delivered and in case they are not prepared to sign it at once they will be given the opportunity to return to Germany to consider it and return for the formal signing at Versailles.

There is trouble in the Stewart government at Edmonton, and it looks as if our prophecy of a year or two ago was about due for fulfillment. From the look of things Charles Stewart must get out. He is a good man, all right, but is not posted on politics to the extent of A. G. McKay, and it would not surprise us if Hon. A. G. McKay would soon be Premier of Alberta. Hon. J. R. Boyle also has aspirations to the premiership, but Mr. McKay has him outclassed in political intrigue, and political intrigue is what cuts the ice in the "Liberal" ranks at the present time. It will be funny to see McKay and Boyle fight it out.

Mail Contract

Sealed tenders addressed to the Postmaster General will be received at Ottawa until noon, on Friday, the 4th April, 1919 for the conveyance of His Majesty's Mails, on a proposed Contract for four years, twice per week on the route Lacombe No. 2 Rural Route via Brooks from the 1st July next. For Sale

Clive Butcher Business for sale. A good business for the right man. Call or phone, A. A. Smith, Clive, Alberta.

It's Up to You!

Why should you go through life with half sight, or poor vision? The other day I fitted a man with glasses who had gone through life so near sighted that he could not recognize a friend across the street. This man had never known the joy of clear vision and it was a pleasure to see his delight when he viewed distant objects for the first time.

Then there is a person who has a headache after reading for a short time. It is more painful that the near-sighted condition, but yields equally when proper glasses are worn. If you are having trouble with your eyes, have them tested.

CASE

Kerosene Tractors
Save Your Horses

Walking over plowed ground all day tires your team as well as the driver. How about pulling a load besides? In these days of scarcity of horse and man power the heavy farm work such as disking can be done most speedily and economical with a Case Kerosene Tractor. The 10-18 or smallest Case tractor can pull an eight foot double action disc harrow a 6 to 8 foot depth. Busy farmers can work the "iron horse" day and night if necessary. Don't forget that Case tractors operate over dusty fields without dust entering cylinders. The Air washer fully protects the motor. The all cut steel spur gears are fully enclosed and run in oil. The weight of the Case 10-18 is only about 3,400 lbs., this with the liberal sized tires prevents soil packing. Other important features explained in full descriptive literature sent out for the asking. Let us tell you more about the 10-18 or larger Case Tractors.

Gus Collins, — Dealer

214,999 Ounces Liquor Sold by Edmonton Drug Stores in January

Calgary will kindly move into the second row: Henderson's and other historical authorities to the contrary it has been at last definitely established that Edmonton is far in advance of her southern rival as a centre of distribution. This is to say that Calgary compares as a caboose does to the engine in the matter of supply and consumption upon which good civic business is supposed to be based.

Persons with sarcastic turns of mind might be inclined to juggle the appended into a different state of disarrangement but the facts are that Edmonton during the month of January, A. D. (meaning January, Awfully Dry) purchased over 214,999 ounces of spirituous liquors from the capital city drug stores, while Calgary trailed far behind with a half load of only 119,255 ounces. These mathematical facts are given in a return tabled in the legislature Thursday by Hon. J. R. Boyle in response to an order from Dr. Stanley, member for High River. The said facts were obtained by the provincial police, but the return so far as Calgary was concerned gave only the names of the druggists from whom the liquor was purchased, the total amount and told not whom the doctors were who prescribed the municipal dose.

The Edmonton returns were complete to the last detail and showed that a great number of doctors in the city and immediate district prescribed with considerable regularity. The one outstanding prescriber, however, noted in the returns was Dr. Giroux of St. Albert who led with 271 prescriptions in one drug store alone. The police report states that Dr. Giroux was reported to one or two of the drug stores as not being registered with the Alberta Medical association.

Five of the city drug stores sold on doctors order, totals which run into the five figure class. The Dominion Drug Co. sold 23,361 ounces, Archibald's sold 22,192, Hudson's Bay sold 19,292, Heath's sold 17,188, and the Jasper sold 13,826. A long list of other drug stores ranged below the 10,000 mark. In Calgary the honor roll was led Weinfield's Drug Store with 21,288.

The number of prescriptions in Edmonton upon which the 214,999 ounces were sold, numbered 7274. The whiskey consumed far exceeded that of all other liquors, the total quantity prescribed reaching 102,516 the next nearest being brandy, of which 10,851 ounces were sold.

CHRIS GIBBON'S

Accurate Account of Rhyt-Riot

Rhyt, North Wales, March 13—After full personal investigation of the riots at Rhyt, I am now able to give an accurate account of the deplorable occurrence which brought disgrace to all Canadians in England, a disgrace felt by none more fully than those who actually took part. This is shown by the quantities of loot returned voluntarily, and scores of letters of protest against the exaggerated and misleading reports published, and the anxiety of the men to assist in fixing the blame for the more serious events.

The seriousness of the occurrence cannot be minimized, but it is only fair, however, to state that at the commencement of the demonstration there was no intention or expectation that the affair would end in injury or deaths. Undoubtedly there was a widespread discontent over the postponed sailings, which was intensified when the departure of battalions of the third division was announced. Men, many of whom were actual originals, were told they were only to remain in Rhyt for three or four days when they came back from France, but some have been in camp ten weeks, including restrained prisoners. The camp was organized for transients and this could only result in overcrowding.

It was difficult for the men to find occupation when the weather was bad, and the nearest town was five miles away. Pay was not forthcoming on time, owing to the books being completed for demobilization, and permanent camp-fitters realized that they were sitting on the edge of a volcano, and warned Argyle house repeatedly to urge action.

A full statement, explaining the situation it seems would certainly have proved timely. The lack of candor on the part of headquarters at London was certainly largely responsible as the men had no complaint whatever as to the treatment of local officers. Everything possible was done for their comfort. The effectiveness of the administration is shown in the fact that despite immense quantities of food destroyed all meals were served. The officers mixed with the men practically all through without insult or danger.

The demonstration was started by the men of one hut from the Kingston and Ottawa districts whose immediate complaint was against the navy and army canteen board, not under Canadian control, where though large stacks of popular cigarettes were stacked, none were sold. The men decided that since it was not possible to purchase them, they would get them, and they rushed the canteen and got cigarettes, also beer. Many more men then joined in and, flushed with success, rushed the civilian temporary stores, where they alleged they had been overcharged.

WILL ADHERE TO DIRECT TAXATION IN THE PROVINCE

In the debate Tuesday over the mother's pension bill, Premier Charles Stewart confirmed the forecast in the Journal last Saturday that the provincial government intends to adhere to the system of direct taxation inaugurated in 1918 under the name of the Supplementary revenue tax Act. At one stage of the debate, Andrew Gillmour, (Opp.) Lacombe was arguing that the province should assume a large share of the fifty per cent. payments for children or widowed mothers. He suggested that if the government decided to continue the Supplementary Revenue Tax Act this year, the province should have enough money to assume a larger share than fifty per cent. of the payments.

"If the member from Lacombe is endeavoring to find out whether 'the government is going to continue the Supplementary Tax Act,' put in Premier Stewart, rising. "I can tell him right now that we are."

Approximately \$1,600,000 was raised last year under the direct revenue tax, \$800,000 being for the patriotic fund. The premier recalled that \$600,000 of the money is yet uncollected. However, as the payments of this tax come ahead of all other taxes raised by municipalities, it is as good as paid.

It was expected that the public accounts would be laid on the table yesterday, but owing to the pro illness of Hon. C. R. Mitchell, provincial treasurer, they were delayed. Mr. Mitchell attended today that they would be brought into the house next Monday.

They looted these and then the crowd, growing every moment more inflated with the destruction, broke into parts and rushed other canteens, including the Y. M.C.A. and one sergeant's mess, where more liquor was obtained. The looting began at 9 o'clock on Tuesday evening and continued until Wednesday morning. Many canteens were saved in various camps by loyal men. There was no trouble from the Montreal district, as the permanent officers urged the men to desist and pickets broke up the crowds, which was difficult on account of no distinguishing marks to know the rioters. Not more than six hundred men of the seventeen thousand in camp were actually concerned.

Hundreds more joined the looting merely because cigarettes and clothing were available. It was the policy of Colonel Colhoun, Brand, not to use force if possible. He knew that to use force against drunken rioters would mean pitched battle. However, on hearing reports of the senseless project to raid headquarters and destroy the records of necessary demobilization, he decided that a counter attack was necessary. This took place at midnight when the area of the quartermasters store was being looted. The officers with subaltern staff numbering 15, armed with shotguns and base ball bats, rushed and dispersed three hundred men. It was hoped that the riot would die out by morning, as the requisition was taken to the office of the commandant and all liquor canteens, not looted or destroyed were closed. Where the men obtained further supplies is a mystery but I am informed by many that some of the beer and whiskey remained. A search of the canteens revealed quantities of lemon extract. This, mixed with the beer made fizzy drinks and resulted in more serious occurrences on Wednesday.

At noon a large crowd suddenly attacked the guard room of the 10th and the guard, without orders, fired into the air, and caused a retreat. Despite the bombardment of rocks the pickets charged and took three prisoners. The mob rushed forward, led by its drunken leaders and attempted to stab Lieutenant McCormick, but was frustrated by Private Black, while Captain Orbits was saved by Private Rapley, armed with an axe. The mob was led by Miesko, a Czech-Slovak, who shouted "Bolsheviks." Many foreigners were concerned. Lieut. McCormick was injured in the melee. The men showed splendid spirit in defending the camp. It seems evident that previous to this occurrence agitators had begun to inflame the men, but up until noon there was not sign of the red flag. In the melee around the cavalry barracks it is understood, William Taraschuk, a Greek who first enlisted, and Gunner Jack Hickman, were killed with bayonets.

STALLIONS

For Sale

FIVE PURE BRED PERCHERON STALLIONS, described as follows,

Sunnybrook Buster 5477

Dark gray, long star, high hind foot white, foaled May 17th, 1916, bred by James Bower and Sons, Red Deer, Alta.

Notice To Employers

The Workmen's Compensation
Act, 1918, provides that every em-
ployer of labor coming within the
scope of the act, shall forward
each month a statement of his pay-
roll to the Workmen's Compensa-
tion Board at Edmonton.

As the Act is now effective, em-
ployers should at once communi-
cate with the secretary of the board
who will forward such forms as
are necessary.

THE WORKMEN'S
COMPENSATION BOARD
Edmonton, Alta.LACOMBE BELGIAN
HORSE BREEDERS

The Lacombe, Belgian Horse
Breeder's Club has been reorgan-
ized, and the officers for the ses-
sion of 1919 are as follows, Presi-
dent—Fred Emerson,
Vice Pres. H. Flewelling,
Sec. Treas. J. Henderson, Jr.
Board of Directors (B. J. Hend-
erson, Fred Langrock, Roy Millard,
and Wm. Teward).

The club has been fortunate in
securing the services of the Bel-
gian stallion ("Cesar 7779") owned
by Wm. Smith, Lacombe. This
stallion is a good specimen and
typical of his breed possessing size
(weight 2300 lbs.). Correct confor-
mation and straight action.

This stallion "Cesar 7779" is
standing at a service fee of \$21.00
for the season of 1919 and any
members paying the annual fee of
Five dollars may become a mem-
ber of the club. This money after
meeting all legitimate expenses of
organization and etc. is placed to
the credit of the club with a view
of reducing the service fee to be
paid by the member.

Members wishing the services of
the stallion must promptly apply
to the secretary in writing on or
before Mar. 21, 1919 stating the
number of mares they wish to have
served. In the event of too many
applications, the vacant nomina-
tions shall be ballot for.

For further information apply
to John Henderson, Jr. Secretary-
Treasurer.

Outline of Federal Scheme

The farmers of any district,
wishing to work for betterment
of horse breeding by encouraging
the use of sound individually, ex-
cellent, pure bred sires, may form
a Breeder's club for the purpose
of hiring a pure bred stallion to
travel their district for the bene-
fit of the members. This club, by
organizing under and adopting the
constitution and by-laws, and con-
firming the various rules and regu-
lations governing this grant, may
participate in the Federal Assis-
tance given to such clubs as here-
inafter set forth:—

1 The club shall guarantee the
stallion owner a definite number
of mares at a certain service fee
per mare, said mares to be in good
breeding condition, and not af-
fected with any contagious or in-
fectious disease.

2 All stallions named by Clubs
for the purpose of securing Gov-
ernment assistance must be sub-
mitted to an examination by an
authorized veterinary surgeon.

3 The Secretary of the Club
shall forward to the Live stock
branch, with the regular applica-
tion, a list of its members, also
a copy of the memorandum of agree-
ment signed by both parties in-
terested. This agreement shall not
become binding until approved
by the Live Stock Commissioner.

4 The minimum service fee shall
be not less than twelve dollars,
and maximum shall not exceed
twenty-five dollars.

5 All service fees shall be col-
lected by the Club.

6 Payment of service fees shall
be made as follows; one-third of
the service fee for each guaranteed
mare shall be paid by the Club to
the stallion owner at the end of
the service season.

7 The remaining two-thirds of
each service fee shall be paid when
the mare proves to be in foal.
That is to say, the remaining two-
thirds shall be paid only for mares
as prove to be in foal.

8 At the end of the service ses-
son the stallion owner shall fur-
nish the Live Stock Branch with
a sworn statement setting forth
the number of mares bred to his
horse and the name of the owner
of each.

9 The Live Stock Branch shall
pay the club an amount equal to
33 1/3 per cent of the total amount
paid to the stallion owner at the
close of the service season on the
actual number of mares bred
but not exceeding the guaranteed
number, on receipt of the stallion
owners' statement and of a prop-
erly audited and sworn statement
signed and declared by the Presi-
dent and Secretary.

10 The Live Stock Branch shall
pay the Club a second grant equal
to 33 1/3 per cent of the amount
paid to the stallion owner on the
total number of mares that prove
to be in foal, that is, 33 1/3 per
cent of two thirds the service fee
paid for each mare that proves to be
in foal, on receipt of a properly
audited and sworn statement signed
and declared by the President and
Secretary of the Club.

The object of the club is the
improvement of the horse breed-
ing industry of the district by the
introduction of first class stallions,
and to take advantage of the Fed-
eral Assistance granted to such
clubs by the Dominion Live
Stock Branch.

JESSE FRASER, AGENCY

Bentley Notes

It would seem necessary to make another plea to our people to support the new editor. Last week and the week before we were rather short of news items. Not because there was nothing to report but because it was not reported to us. We do not like to put in items when they are rather old. Please do not be haphazard. If you have someone visiting you call us up on the phone. If you are going away, or have just arrived home let us know about it. This is your page just as much as it is ours. And it is not necessary to wait until Monday morning to phone it in, call us up any day and then you will not be apt to forget it.

Last Wednesday, the Bentley District Branch shipped two boxes of finished supplies to the Provincial Depot in Calgary. These boxes comprised the following supplies, 2 dressing gowns, 24 T. Bandages, 24 suits pyjamas, 36 H. W. Bottle covers, 11 binders, 24 stretcher caps, 36 amp. Dress Covers, 24 wringers, 12 boys nightshirts, 12 shirts, 24 M.T. Bandages, 120 B.P. Covers, 66 P.P. Bags, 168 pillow cases, 2 surgeons operating gowns, 25 pr. Bed Socks, 12 pair operating stockings and 48 pairs Woolen socks. The value of the shipment is over \$250.00.

In the statement re Red Cross Annual report last week, the line-type must have slipped a cog, because there was part of the secretary's letter that was omitted and failed to make the statement clear. For sake of a clear understanding of the matter we repeat the gist of the matter this week. The Red Cross Annual report gives a correct list of the donation from Bentley to Ogden Hospital in all but 3 items. We are credited with 60 pounds of potatoes, 2 quarts of preserves and no cabbages—We sent 1400 pounds of potatoes, 36 quarts of preserves and 47 pounds of cabbages. In the letter quoted last week the secretary of supplies says that the office books show the shipment to be as we sent it; She cannot explain how the mistake was made in the Annual report.

Two weeks ago in the Feb. report of Red Cross work turned in we neglected to credit Mrs. H. W. Birch with 66 B.P. covers. We have no intention of overlooking and will only be too glad to have any errors or omissions reported to us. Anyone who has not received their Red Cross Annual Report may do so by calling at the Parsonage and asking for one.

Japalac in all sizes and colors for floor, chairs and all woodwork. Morrison and Johnston, Ltd., Bentley.

The Rainy Creek Ladies Aid met at the home of Mrs. N. S. Nelson on Wednesday last when the election of officers took place. This resulted as follows:

President—Mrs. E. J. Wyatt. Vice-President—Mrs. J. H. Stone.

Treasurer—Mrs. J. J. Nelson. Secretary—Mrs. W. H. M. Thompson.

The treasurer's report for the year ending Feb. 28th showed total receipts \$88.27; total expenditures \$56.22, leaving a balance on hand of \$32.05.

Mr. and Mrs. Geo. Stephenson have moved from their farm to Lacombe.

See our power washer with wringer attached at Morrison and Johnston, Ltd., Bentley.

The Mesdames Putland are visiting in Bentley and Rimbey this week.

The regular monthly meeting of the Women's Missionary Society will be held in the church on Wednesday March 26th, at 3 p.m. The subject will be TZEELIUTING. It is expected there will be a good attendance.

Beds and mattresses and springs at Morrison and Johnston, Ltd., Bentley.

Mrs. F. G. Buchanan, inspector of Schools for Lacombe district, paid an official visit to the schools here last week.

Mr. and Mrs. J. H. Damron and Dorothy are leaving on Thursday for Illinois where they will visit Mrs. Damron's mother. Mr. Damron expects to return by Los Angeles and the west.

Sherwin Williams Barn paint at Morrison and Johnston, Ltd., Bentley.

A lecture will be given in the Church on Friday evening, April 4th on the British Navy by Lieut. Ernest Heywood, P.R.G.S. This will be illustrated by splendid pictures. Lieut. Heywood was a lecturer in England under direction of the War Dept. of Public Information. He visited the navy and his lecture is based upon his experiences there. Keep this date

open and plan to attend. The lecture will be under the auspices of the Y.P.S. and no charge will be made. A collection will be taken.

Mrs. G. A. Clapp and son Harold who have spent the winter at the parsonage returned to their home in Edmonton, last Friday. They were accompanied by Private Clifford S. Clapp.

One of the most interesting evenings yet put on under the direction of the Y.P.S. was the miscellaneous program and short play on Friday night. Solos were rendered by Misses Court and Williams and Messrs. Gibson and Fawcett. Readings were given by Miss Nutall and Messrs. R. C. Miles and F. W. Thorp. The play "Poor Old Jim" was well put on by Miss Nolles and Messrs. Frank and Percy Thorp. "Frank" was "Poor Old Jim" a gentleman who had drunk himself to death during the greater part of the play was the ghost of this gentleman. Miss Nolles was Jim's wife and sustained the part splendidly. Percy was the Doctor who planned the treatment for the inebriate, which worked so successfully. Poor Jim was scared into his right senses finally and resolved to be a good citizen rather than a disgrace to his family and community.

There was over 125 present. The next meeting will be in charge of the debating committee. We are assured of another interesting evening. Everybody is welcome.

The local camp No. 14009 M. W. A. are holding a dance in the hall on Friday night Mar. 21st. Good music will be provided. The ladies are asked to provide supper. Mr. Bolton arrived on Monday to take charge of the co-operative store.

Miss Lila Larson left on Monday morning for Wisconsin. Mr. and Mrs. J. B. McPherson left a week ago to spend a short time visiting in Oregon.

Mrs. J. F. Miller is spending the week in Calgary.

Three carloads of men went into Lacombe on Saturday night to see the Tractor pictures which are being shown under direction of the Bentley Garage. The enjoyment of the return trip was heightened we understand by a break down, but it wasn't a Moline, it was a Chevrolet, so the demonstration was a success anyway.

A special meeting of the Sunset Local U.F.A. was held in the Stephenson schoolhouse on Saturday night. There was a fairly good turnout. Mr. J. L. Robinson was appointed to attend a meeting in Red Deer on Tuesday 18th to discuss the advisability of calling a Farmer's Convention for the Red Deer Constituency for the purpose of organizing for political action.

After the business was attended to, a debate took place on the following resolution, "Resolved that the tractor is more useful to the Farmers of Alberta than the Horse." Messrs. H. P. Hansen, J. L. Robinson and Edward Haast supported the affirmative and Messrs. J. C. Moulton, Oscar Vig and Alf Haast, the negative. The judges were Messrs. G. Haast, Hans Skjensberg and W. Donaldson. The debaters handled their parts well and it was a fight to the finish. The judges awarded the negative first with 42 points and the affirmative second with 30 points. So the horse still holds his own by a safe margin.

MUDDY, PIMPLY SKIN?

Many people with disfigured complexion never seem to think that they need an occasional cleansing inside as well as outside. Yet neglect of this internal cleanliness shows itself in impurities and sallow complexion, as well as in dreadful headaches and biliousness. It is because the liver becomes sluggish, and waste matter accumulates which Nature cannot remove without assistance. The best

CHAMBERLAIN'S TABLETS

remedy is Chamberlain's Tablets, which stimulate the liver, gently cleanse the stomach, bowels and tone the whole digestive system. Safe, sure and reliable. Take one at night and you feel lighter and sunny in the morning. Your skin becomes clear, and your blood pure. Get Chamberlain's Tablets today—all drug stores or by mail from Chamberlain Medicine Company, Toronto.

A number of odd sizes in old values at the
 old prices.
 \$1.00 to \$1.60

BOYS AND YOUTH'S WORK SHIRTS

CLIVE FARMERS MEET

Who said the U.F.A. of Clive was dead? It did not look that way Saturday. There were thirty men and three women present. Much business of importance was transacted and some good resolutions were framed. The following paper was given by Mr. H. J. Northcott, which is worthy of publication.

Co-operation.

The act of working together and for the same purpose, with the combined powers of understanding to the same end. There must be some necessity and from that necessity comes the invention of co-operation.

Co-operation has made vast strides in the business world for the past century. The methods of the whole world have been revolutionized by it, and from the time of Adam, all the great battles have been won by the combined efforts of the forces, and as the world has advanced, every avenue of trade has taken up organization, and today any business operating without organization, would appear like a pipe-dreamer, practically dead but not buried.

It goes without saying that the farmers are about the last class on earth to do things under an organized system and many trials have apparently been lost, and no doubt many efforts will yet be spent, before any perfection can be pronounced, but failure or partial failure, can only attend any great undertaking, or success, and the essence of glory and achievement thereby, while the experimental stage has not successfully passed to a crowning realization.

The organization that we stand for here to-day surely has no apologies to offer.

It has been born and born again and now comes on a grand and glorious hazy, ready for business, ready to give and receive the bath of life, ready to take its place among the great organizations of the time, and fight to a finish any unjust discriminations against us.

I must not lose this opportunity to mention some of the little

things that go hand in hand with successful co-operation.

First of all, a full and hearty support of its members must be forthcoming.

Secondly, a feeling of sympathy and harmony must transplant every ill, jealousy and hypocrisy, and lastly, propagandists and tale-bearers must be referred to head office.

It is now time to be up and doing, making schedule for a full day's work, a whole year's work, and laying foundations for time to come.

The power and benefits of purchasing and selling by organization have already been felt, and demonstrated. The little incident on apples last year is too near at hand to be forgotten, and I could go on innumerable, indefinitely, with just such cases but I must not dwell. We must take up some new matter to be successful, but we must not go faster on the above lines than we can garish.

I must refer to co-operation again. The whole rank and file must be there to protect the advance guards and the trenches must be held, and while we are at work let us not forget that the air craft of the enemy is hovering overhead, watching every movement.

This I liken to a great political machine.

Every effort of achievement accomplished today might by some political scheme be laid barren by one stroke of the pen. Therefore I say it would be a sad mistake to walk blindly and let the other fellow lay down all the laws.

On these lines, a word to the wise is sufficient, but a whole convention can be consumed in its consideration later on. I must now turn to our condition today.

We have gone through four years of war, four years of inflation, four years of high cost of living, four years of regulated suppression on prices of the farmers' products. Some may say this is not so, then I refer to the first year of the war, when the price of wheat and everything else was keeping full pace with the price

of machinery, and with one slap in the face, wheat was cut from \$3.00 a bus. to \$2.21, while machinery and the like was cut from \$1.75 to \$2.75 and everything else in proportion. While wheat was choked to a struggling existence, with other things taken into consideration, and when they saw this was going to die in another year they figured it out so clearly that 2 1/2 c. more were added and pronounced her still living.

Will call your attention to a little matter concerning the price of wool. The past season the Organized Wool Growers of this district realized for their wool, a price ranging from 60c. to 72c. per lb. While I allowed one of the local merchants to send mine to the wholesaler for all there was in it, and took the embarrassing and insignificant sum of 40c. per lb. So much for the organized wool-growers. I then turned around and bought 2 lbs of manufactured wool and paid the neat little sum of seventy five dollars, so much for organization. On the other side the manufacturer, if allowed to march on will remove the burden of the last penny the farmer has. There I say are the conditions today. But there is going to be a change, and these changes if not checked are going to be applied to the farmer in the same old way, wrong end up, and the producer will be the first man knocked down.

And it is up to this organization to see that he gets up to a living and debt paying standard, and stay up till the other fellow comes down or at least go hand in hand together.

History tells us about financial disturbances.

Well, financial disturbances are nothing more or less than hard times and the disorganization of certain forces, and are governed in any country by the simple laws of cause and effect, and it will be by no means peculiar to our Canada.

A glance today at the affairs of the whole world go to show that there is cause for alarm, and that we stand and have stood the cause for a long time, and will in effect be getting it, unless offset measures are adopted.

Statistics tell us hard times have been produced here more often than in the old country.

This is mostly due to the fact that the working, producing and expanding population of a new country like this are too busy with their own affairs of existence to assume a greater obligation of watchfulness to public law-makers.

And it is right here that this powerful organization should be felt in the balance of any party or the whole party, wherein the inalienable rights of life, liberty and happiness, of our common people may stand protected.

I have used the word common people here, because it is justice because all laboring classes have closely associated interests, because a large number of retail merchants depend upon the living prosperity accorded to us, and because they are doomed by fortune or failure, by the ability of the producers to pay his bills, and because the average merchant will tell you today that with the high charges made, he has the time of his life to buy from the wholesaler or jobber wherein he can make a profit, and the terms of sale are outrageous. I believe this and so do you. I believe that it is high time for executive measures to be taken in this regard.

Even if we have to ignore Mr. Wholesaler, Mr. Jobber, entirely, and deal direct with manufacturing, while we make one of the distributing points at Clive, Alberta.

There are a few other conveniences that are by no means small issue and one but not least of them, is in capacity of elevator facilities at our local point.

The past season was the best for years, the reason was that we had a very poor crop, comparatively, and the big cropping country around us had practically no crop at all. With a big crop in our hands and a shortage of cars as in the past four seasons, and a scarcity of scow shovels, where are you at. Our co-operation is needed and needed badly.

A change is due, and change must come.

Take it over—and imperatively say—**THINK ACTION!**
 Sec. Treas. W. E. Allison

Mrs. J. T. Reynold and grandson Arthur Gill are Clive visitors this week.

Mr. A. C. Johnston was a visitor in Edmonton this week end. The two delegates, Mrs. A. A. Smith and Mrs. W. E. Allison returned from the Calgary convention Saturday. They report a good convention and gratitude towards their city friends. Mrs. J. T. Reynolds and Mrs. Curn who entertained them during their visit. The Settler constituency carried off the prize for the greatest membership, but Clive has the greatest membership of any individual in the province. Many of the Clive resolutions were adopted by the convention, which speaks for our organization.

Mr. H. B. Scott, Calgary is the guest of B. F. Allison. He report California a splendid country, but Alberta, the country for him.

Mrs. W. Bateman and son Robert left for Minnesota, Monday.

We are glad to report that Mrs. Tees, at Red Deer is recovering slowly.

Mr. and Mrs. Clyde Forcht returned from Calgary, Saturday.

The Anniversary services were a decided success and the Ladies Aid served the usual excellent supper, for which they are noted. Mr. C. Rogers (Rev.) aided in the entertainment by his moving pictures which were much enjoyed, also delivered the Anniversary sermon at all points of the circuit.

We wish to remind you again of the basket social to be held the 28th of March when the debate will be the event of the evening.

J. R. WHITNEY

PROVINCIAL AUCTIONEER

Sales Conducted to Assure the Owners Highest Approval.

I sell everything Anywhere in Alberta.

See me for dates, or arrangements can be made at the Globe Office for dates.

A Child can operate it—requires attention but once or twice a week.

DELCO-LIGHT

ELECTRICITY FOR YOUR HOME

will supply ample light for all buildings and sufficient power for small farm machines, such as churns, separators, and washing machines. It brings city comforts and convenience to the farm. See it at work.
